

Labo 8 – CSS deel 4

Opdracht 1

Ga na wat het effect is van het veranderen van de display property voor .area naar achtereenvolgens:

Block	
Inline	
Inline-block	

- ➔ In block staan ze allemaal onder elkaar.
- ➔ In inline staan ze allemaal naast elkaar maar hebben ze de grootte van de tekst die erin staat.
- ➔ In inline-block worden ze op een rij gezet , in dit geval lukt dit niet om ze er allemaal te zetten (dit is door de grootte die ze hebben gekregen) en verplaatsen de overige zich naar de volgende rij.

Opdracht 2

Vanwaar komen de lege ruimtes tussen blokken die naast elkaar staan?

- omdat de elementen zich gedragen zoals tekst (inline) en tekst heeft altijd witruimte tussen woorden.

Opdracht 3

Waarom staat de tekst in de blokken horizontaal gecentreerd?

- Door tekst-align: center;
- Als er een container (zoals een div) is met deze eigenschap, zal alle tekst die erin staat, horizontaal gecentreerd worden.

Waarom heeft een property vertical-align: center geen effect?

- omdat center geen geldige waarde is, de juiste waarde voor verticaal centreren binnen een inline of inline-block element is bv. vertical-align: middle, maar het moet worden toegepast op elementen die zich op bv. inline-elementen.

Wat doet vertical-align?

- vertical-align beïnvloedt de verticale uitlijning van inline-level elementen of inline-blocks ten opzichte van de omliggende tekstlijn.

Wat is de 'simpele' manier om een één enkele regel tekst verticaal te centreren? (tip: line-height)

- om één enkele regel tekst verticaal te centreren binnen een element, moet je line-height in te stellen op de hoogte van het element.

Welke truc wordt vaak gebruikt om meerdere regels verticaal te centreren? (tip: table cell)

- line-height alleen werkt voor enkele regels. Een veelgebruikte truc is het gebruik van display: table-cell met vertical-align: middle;

Waarom krijgt de regel voor class 'tall' voorrang?

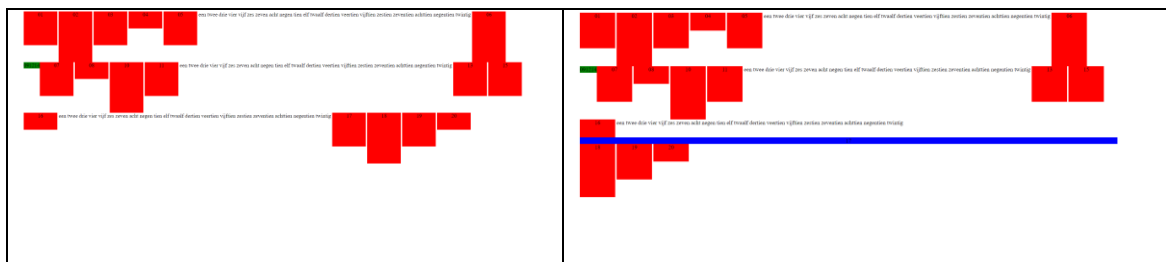

→ Als er meerdere regels in CSS zijn die de hoogte (height) van een element met de class tall instellen, krijgt de laatste regel meestal voorrang

Opdracht 4

1) 'floaty' class

2) 'break' class

Opdracht 5

Opdracht Lorem ipsum

width van 50%

➔ Werkt niet, padding en border worden standaard bij de breedte opgeteld, wat er voor zorgt dat de totale breedte meer dan 50% wordt en de kolommen niet naast elkaar passen.

Where does it come from?

Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old. Richard McClintock, a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cites of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of "de Finibus Bonorum et Malorum" (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a treatise on the theory of ethics, very popular during the Renaissance. The first line of Lorem Ipsum, "Lorem ipsum dolor sit amet...", comes from a line in section 1.10.32. The standard chunk of Lorem Ipsum used since the 1500s is reproduced below for those interested. Sections 1.10.32 and 1.10.33 from "de Finibus Bonorum et Malorum" by Cicero are also reproduced in their exact original form, accompanied by English versions from the 1914 translation by H. Rackham.

Where can I get some?

There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don't look even slightly believable. If you are going to use a passage of Lorem Ipsum, you need to be sure there isn't anything embarrassing hidden in the middle of text. All the Lorem Ipsum generators on the Internet tend to repeat predefined chunks as necessary, making this the first true generator on the Internet. It uses a dictionary of over 200 Latin words, combined with a handful of model sentence structures, to generate Lorem Ipsum which looks reasonable. The generated Lorem Ipsum is therefore always free from repetition, injected humour, or non-characteristic words etc.

1. width op 47%
